Welcome! (3:15)

Review Question 1

1/1 point (graded)

Machine Learning uses algorithms that can learn from data without relying on explicitly programmed methods.

☒ True ✓

☐ False

Submit

You have used 1 of 1 attempt

✓ Correct (1/1 point)

Review Question 2

1/1 point (graded)

Which are the two types of Supervised learning techniques?

☐ Classification and Clustering

Review Question 2

1/1 point (graded)

Which are the two types of Supervised learning techniques?

- ☐ Classification and Clustering
- ☐ Classification and K-Means
- ☐ Regression and Clustering
- ☐ Regression and Partitioning
- ☒ Classification and Regression ✓

Submit

You have used 1 of 1 attempt

✓ Correct (1/1 point)

1/1 point (graded)

Which of the following statements best describes the Python scikit library?

- ☐ A library for scientific and high-performance computation.
- ☒ A collection of algorithms and tools for machine learning. ✓
- ☐ A popular plotting package that provides 2D plotting as well as 3D plotting.
- ☐ A library that provides high-performance, easy to use data structures.
- ☐ A collection of numerical algorithms and domain-specific toolboxes.

Submit
